Health Director

Ashley Boudreau, BSN, RN  
Public Health Nurse

2/16/2022

The Eastern Hampden Shared Public Health Services, along with the Massachusetts Department of Public Health, has seen a shift in the way residents of the Commonwealth are utilizing at-home antigen testing to diagnose active Covid-19 infections.

In an effort to obtain the most accurate number of positive Covid-19 cases, we are asking residents to utilize our new Covid-19 Self Reporting Tool. Once you receive a positive result using a home antigen test, you can visit <https://bit.ly/MonsonSelfReporting> or scan the QR code below to enter your test results and answer questions regarding symptoms.

Each household in the U.S. can sign up to receive 4 free at-home Covid-19 antigen test kits by visiting <https://www.covidtests.gov/>. To locate PCR testing, visit <https://www.mass.gov/covid-19-testing>.

Best,

Ashley Boudreau, BSN, RN
